

Dear Legislator:

My child, _____, is excited about books, and Reach Out and Read (ROR) has played a big part in making that happen. The pediatricians, nurses, and other health care providers that work with ROR have been teaching parents like me that reading aloud to our kids when they're young gives them the best chance for success in school. Please continue to support this program – the children and families of New York will thank you for it!

Sincerely,

Name of ROR Site in your district:

Reach Out and Read puts books into the hands of children 6 months to 5 years of age through pediatricians, nurses, and other health care providers, with a special emphasis on children in need. Our mission is to make literacy promotion a standard part of pediatric primary care so that children grow up with books and a love of reading.
